THE CARAPACE (Kah-rah-PAH-cheh)

Join the upcycling revolution.

The one-of-a-kind identity of the Carapace collection lies in being a virtuous example of creative reuse that draws inspiration from the world of fashion. The leather paper of the cover gives a second life to the industrial by-products of leather goods, thus replacing the pure cellulose from trees.

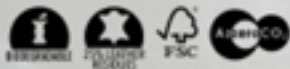

INSPIRING COLOUR PALETTE

The collection's range of colours offers inspired shades of nature, representing its essence. The distinctive personality of the palette is enriched by the tone-on-tone combinations that make each notebook of the collection unique.

* COVER COLOUR MATCHING WITH WATER BASED COLOUR EDGES.

SUSTAINABLE TO THE CORE

The Carapace notebook pages are made of 100% recycled fibres and fully biodegradable paper, FSC® certified and crafted with green energy.
